

FOR IMMEDIATE RELEASE

PDI Founder and Principal Fire Protection Engineer Participates in USA Fire Chiefs Delegation to Poland

San Antonio, Texas – October 11, 2016

Robert C. Andrews, Jr., P.E., Protection Development, Incorporated (PDI) Founder and Principal Fire Protection Engineer, just returned to San Antonio from a ten-day study visit to Poland.

The trip was organized within the USA – Poland INFIRENET (International Fire & Rescue Network) Project and co-sponsored by the Institution of Fire Engineers – United States of America Branch and The Main School of Fire Service in Poland.

Andrews was one of six delegates representing the United States. While in Poland, Andrews made a formal presentation at a Polish – American Seminar at the Main School of Fire Service in Warsaw. His topic, *Use of the ICS system and Mutual Aid in Catastrophic Events*, was well received by the 150 senior fire officers and emergency management professionals who attended from throughout Poland.
